Letter Of Service- Whomsoever It May Concern

To - Nivyash Marine (Ref : Details As Per Work Order Issued)

Nivyash Marine supported Bunker Barge Jetty Feasibility Study for IOCL at TUTICORIN in 2022.

The objective of the feasibility study was to assess the most suitable and safe Berth location after assessing all berths in Tuticorin Port.

Assessment basis size, strength, Marine operational Risks including geographic, meteorological, ..etc as well as feasibility of safe navigation practises.

The study included an assessment of alternative locations as proposed by Port Control and future scalability for the size for larger Bunker Ships.

Close collaboration between Nivyaash Team and IOCL Team resulted in valuable study and decision-making for present needs and future Bunker projects for IOCL.

Nivyash Marine Management and team, during the entire period of projects, abided by high principles of Ethics, Values, Uprightness, Professionalism and Innovation, as can be expected from a futuristic organisation.

Referenec to work order details are aviable with M/s.Niyash Marine
